

Data sheet

EPHP020201

Description: 2 inch x 2 inch NaI(Tl) scintillation detector

Scintillation crystal: NaI(Tl) 2 inch x 2 inch

Photomultiplier tube: 2 inch PMT CR105-5

Voltage divider and HV: Positive

Pre-amplifier: Charge sensitive positive pulse

Spectroscopic amplifier: Included

Connector: 4 Pin, BNC

Energy resolution: <7.5%@Cs137

The circuit parts can be customized based on request.
